RE: State Route 528 Rail Alignment

Mr. Dubea:

As a follow up to our telephone conversation on June 9, I'm writing to explain the Florida Department of Transportation's (FDOT) position on the proposed Port Canaveral Rail Extension (PCRE).

FDOT recognizes that one of the alignment alternatives proposed for the PCRE would be located within the SR 528 right-of-way. FDOT is receptive to this alignment. At this time, FDOT does not have a preference between an alignment in the north shoulder and an alignment in the median of the SR 528 right-of-way.

We look forward to continuing to work with you on this project.

Sincerely,

Frank J. O'Dea, P.E.
Director of Transportation Development
District Five
